

## PRINCE COMES TO MILWAUKEE

Kaiser's Brother Will Also Visit Chicago, Boston and Niagara Falls.

## DATE IS NOT FIXED

The Itinerary of the German Prince Henry Has Been Mapped Out.

## NEW YORK'S BANQUET

Washington, Jan. 21.—Prince Henry of Prussia will visit Milwaukee, St. Louis, New York, Niagara Falls and Boston in addition to Chicago. He has personally expressed a desire by cable to visit Wisconsin's metropolis which is essentially the one great German city on the Western continent. The visit to St. Louis will be the direct result of the efforts of the managers of the proposed Louisiana purchase exposition to secure the presence of the royal Prussian as a means of aiding the department of publicity and promotion of the exposition.

Wants to See Milwaukee. The prince, however, elected to honor Chicago and Milwaukee without any suggestion from this country. He wants to see Chicago because of its fame as the greatest railroad, industrial and commercial center in the world. In common with all Europeans he has heard of its marvelous growth from an inconsequential and unknown village to a city of nearly 2,000,000 inhabitants within half a century.

The prince's choice of Milwaukee is believed to be the result of a desire to see a city peopled by former subjects of the empire of which he is a prince and their descendants. He will go to Chicago first after he has fulfilled his eastern engagements and from Chicago he will make a flying trip to Milwaukee, where he will spend a part of a day.

Returning to Chicago he will fulfill such engagements as may have been arranged for his entertainment and then depart for St. Louis. How long he will remain in that city has not been definitely determined.

The prince's brother, the Kaiser, has generously prolonged his leave of absence three days, so that he may devote more time to sight seeing in the United States. He will arrive in Washington on the morning of Feb. 24, and after dining at the White House with President Roosevelt and a distinguished company composed of senators and representatives, justices of the supreme court, and officers of the army and navy will leave for New York on a special train.

Low Prepares a dinner. The launching of the Meteor will take place at 10:50 on the morning of Feb. 25. Before leaving New York to return to Washington the prince will be the guest of honor at a dinner to which Mayor Low will be the host. This will be a purely municipal function. The New York Staats Zeitung is also to give a dinner in honor of the prince, to which the editors of the leading American newspapers of the country will be invited. The invitations for this dinner are to be issued within a few days and will be accompanied by urgent notes from the editor and publishers of the Staats Zeitung to the editors receiving them to make a special effort to attend the editorial dinner to the prince.

The Greatest Formality. The distinguished visitor will be in Washington again on Feb. 27 and 28 and the date of his departure for Chicago has not been agreed upon and will probably not be considered until the municipal authorities of Chicago and such civil organizations as will participate in the entertainment of the prince have submitted a programme of entertainment to the secretary of the state. Everything must be done with the greatest formality and the closest attention to official conventionalities. President Roosevelt and the secretary of state will permit no haphazard methods. Because they are desirous that the prince's stay in the country shall be marked by an absolute lack of friction and undesirable incidents.

## ONEIDA INDIANS IN SOME DANGER

Fears That a Smallpox Epidemic Is Impending—To Raise Money for Their Relief.

Green Bay, Wis., Jan. 21.—Two thousand Indians on the Oneida reservation here are in great need and in danger of an impending smallpox epidemic.

The true situation has just come to light, and it is not too much to say that immediate help must be given them if they are to be saved from distress and their present conditions ameliorated.

Since the appearance of smallpox among them before Christmas their affairs have gone from bad to worse. It has recently become so deplorable that their chief, help and counsel, the Rev. Father Merrill, head of the Episcopal mission among them, is now on a journey in the East in an effort to raise money for their relief.

## TEACHERS TO MEET AT MONROE APRIL 4

An Interesting Program is Now Well Under Way, and Will Be Announced Soon.

Monroe, Wis., Jan. 21.—W. P. Rossman, of Reedsburg, president of the Southern Wisconsin Teachers' association, and J. F. Bergen of Mineral Point, chairman of the high school section of the association, have been in the city making preliminary arrangements for the annual meeting of the association which will be held here April 4 and 5. They found the city school board, A. F. Rote, principal of the city schools and J. C. Penn, county superintendent, greatly interested in the meeting and every assistance has been promised the association, and Messrs. Rossman and Bergen state that they are highly satisfied with the prospects for a most successful meeting.

They have secured the opera house Turner Hall and the high school for the meetings, each with a capacity large enough to accommodate the 400 or 500 teachers who are expected to be in attendance.

The programme is now well under way and will be announced about February 15, and promises to be one of the best the association has had in years. Provision has been made for some of the finest lectures to be given in connection with the work of the meeting. No effort will be spared by the officers to make all the general meetings and sections as interesting and profitable as it is possible to make them.

A local committee consisting of the city teachers and headed by Miss Emma Van Vagenen will have charge of the matter of providing free entertainment for all ladies enrolling as members of the association, and their enthusiasm promises that all visitors will be warmly received and will have opportunity to share in the generous hospitality of the city during their stay here.

## TORONTO JIM IN CLUTCHES OF LAW

Well Known Character Who Has Figured in This City, Up for Horse Stealing.

Juneau, Wis., Jan. 21.—The notorious "Toronto Jim" and two "pals" were brought before Justice Clifford today on the charge of stealing a rig and team of horses near Knowles. The examination was adjourned until Jan. 29. They are suspected of attempting to rob the Mayville bank. Bail was fixed at \$750 each, which they were unable to furnish.

"Toronto" is well-known in this city being one of the parties that escaped from the United States secret service officers at the Municipal court room during W. H. Appleby's term as sheriff.

## SIGHT RESTORED TO SENATOR MONEY

Baltimore Oculist Succeeds in Case of Atrophy Pronounced Incurable by Specialists.

Baltimore, Jan. 21.—United States Senator Money, who had exhausted all the resources of American and European oculists in a fruitless effort to restore his rapidly declining eyesight, today declared that his sight is now nearly restored and is daily growing stronger.

Senator Money's disease belongs to that class known to the profession as atrophy of the optic nerve and has heretofore invariably resulted in blindness. There have been some cases in which the disease was somewhat retarded, but never cured. It is the disease which has caused the blindness of Broadway Rouse, the New York millionaire, who has offered \$1,000,000 to anyone who would cure him, and Dr. H. F. Garey, who is treating Senator Money, is convinced that he could have earned the million if Mr. Rouse's trouble were now in its incipency.

Dr. Garey's method is an oscillating method, and, roughly speaking, consists in pulling the patient's eye out of his head and letting it go back again, thus stimulating the nerves and building up the wasted tissues. Contrary to what might be supposed, the method is absolutely painless and perfectly harmless; a delightful sensation is experienced while the method is being applied, and the slight benefit by the first application.

## WILL DISCUSS TAX PROBLEMS

Senator John M. Whitehead to Address Rock County Farmers.

## HAS BEEN INVITED

Annual Meeting of Pomona Grange at Milton Junction Begins Tomorrow.

## BIG CROWD EXPECTED

Senator Whitehead, whose candidacy for the republican gubernatorial nomination against Governor La Follette is being urged by petitions circulated in all parts of the state, will make an address on taxation at Milton Junction tomorrow at a "round-up" of farmers at a special invitation of the farmers, says the Milwaukee correspondent of the Chicago Inter Ocean. The address before the Six O'Clock club at Madison recently, which has been widely published, has whetted the appetite of nearly every tax payer in the state for more from the same source.

Senator Whitehead, it is said, has a great deal to say to the voters on this question, and will make a number of addresses before the convention time. He is the father of the tax commission, and one of its most loyal friends, which fact is exceedingly annoying to the La Folletteites, who have taken to themselves all the credit for the movement of equal assessment and collection of taxes.

Whitehead's Madison address was a bombshell in the ranks of the so-called reformers, for they believed that he was in sympathy with nearly every proposition advanced by the extreme Populists element.

## Filed Clear for Whitehead

The senator was in Milwaukee for a short time yesterday and reported that it was almost a physical impossibility to answer his mail since it was given out that he was to be the candidate of the stalwarts and others who have not aligned themselves with the factions for the republican nomination. Every letter contains words of encouragement. The field is perfectly clear for him, every man who was mentioned for the nomination having announced that he would support Whitehead.

The Milton Junction meeting promises to be one of the largest ever held in Rock county. Whitehead is very popular among the farmers in that neighborhood, being well known and respected for his able service of six years in the legislature. A number of leading Milwaukee republicans will go there to hear the address. All other discussion among the factions in Wisconsin seems to have given way to the taxation problem, and nothing is now heard of the primary election theory advanced as the chief argument in La Follette's behalf only a few months ago.

The vital problem is taxation, and it looks as if the next canvass would be made on that platform, many of the leading La Folletteites admitting that the primary election idea has been completely lost in the shuffle.

Ike Stephenson Not Interested. A La Follette organ in this city is authority for the statement that a half breed paper is to be established at Janesville. It is hardly probable, however, that it will be edited by the Stephenson, the pine log magnate having his hands full with his present wild team of newspapers.

## H. C. ADAMS SPEAKS ON THE OLEO BILL

Admits the Responsibility for Removal of Tax on Discolored Goods.

Washington, D. C., Jan. 21.—Although this was to have been the last day for hearings on the bill taxing colored oleomargarine, the day was occupied by the friends of the measure, and it was impossible for all who desired to be heard to get any time, so an additional day will be given tomorrow for the supporters of the measure to have their final say on the subject. Then the members who have introduced bills will be given time to express their views. Today was occupied by H. C. Adams of Madison, dairy and food commissioner of Wisconsin, who spoke for nearly three hours, most of his time being taken up by answering questions pronounced by the committee.

The point was brought out during his remarks that he admits responsibility for the action of the representatives of the dairy men in agreeing to the removal of all the tax from uncolored oleomargarine.

## SCHLEY APPEAL IS DRAFTED

Miss Lucy Biglow is a delightful reader. She assists Mrs. Learned at the song recital.

## ASK FOR A TEN PER CENT RAISE

United Mine Workers of America in Session at Indianapolis.

## RUN OF MINE BASIS

President Mitchell Urges a Revision of the Machine Mining Scale.

## DECREASE OF FUNDS

Indianapolis, Ind., Jan. 21.—The thirteenth annual convention of the United Mine Workers of America opened with nearly 1,000 delegates present.

The convention was called to order by President Mitchell, and Secretary Wilson read the convention call. Delegate Russell of Illinois presented President Mitchell with a gavel made of wood taken from the old Lincoln homestead at Springfield, Ill.

Mayor Bookwalter welcomed the delegates to the city. He said that while Indianapolis is not a miners' city, it is "one of the best organized labor towns in the United States."

It is the understanding that the delegates are preparing to ask for an advance that will be equivalent to an all round increase of at least 10 per cent.

Along with this report is another to the effect that many of the operators have determined to take a stand for a reduction of 10 per cent on the ground that they have had an unprofitable year.

President Mitchell said: "I am of the opinion that every possible effort consistent with reason should be exerted to have our agreements made upon an absolute run of mine basis in all districts represented in the joint convention this year."

"In the formation of our next national agreement it is imperative that the machine mining in the districts above enumerated is not only unfair but is also fundamentally wrong. I strongly recommend that the executive board be empowered to admit the coal holding engineers in a body and grant them a district charter—their district to vote the United States—and that they be given the same rights and privileges as are now vested in our various district organizations."

The report of W. B. Wilson, secretary-treasurer, showed a decrease of the funds of \$30,729.

## Hunter Committed to Asylum

Streator, Ill., Jan. 21.—John M. Hunter, former state president of the United Mine Workers' association, was declared insane and ordered to be committed to the asylum at Kankakee. Overwork and worry while occupying the responsible position as labor leader, which office he was compelled to resign because of the breaking down of his health, are given as the causes of insanity.

## MAY NAME HEAD FOR THE VARSITY

Board of Regents of the State School Will Meet at Madison Tonight.

Madison, Wis., Jan. 21.—The regents of the state university will hold a meeting tonight and it is expected that man will be chosen to succeed President Adams. The subcommittee appointed to correspond with men suitable and available for the position will report the results of its investigations. Judge Noyes is a member of this nominating committee and yesterday refused to say who would be named. It was learned from other sources, however, that Dr. Wheeler of the Leland Stanford university can have the place if he will take it.

Dr. Wheeler was mentioned for the presidency of the university of Wisconsin at the time President Adams was elected, and had strong support. He is said to be one of the best men in the country for the position, and has recently expressed dissatisfaction at the climate of California, saying that he would like to return to an atmosphere similar to that in which he was reared.

## CLAM FACTORY ON THE MISSISSIPPI

La Crosse, Wis., Jan. 21.—Between this city and Winona thousands of clambers' huts have been built and the clam fishing industry is being carried on to nearly as great an extent as in summer. During the past week several small pearls have been found at the various clambers and many tons of shells have been taken from the river. Jacob Isring of Oconto yesterday found a pearl valued at \$500. The clam fishing is carried on during the winter by means of a huge rake made especially for the purpose.

Miss Carrie Bell Baldwin left this morning for Chicago where she will take part in a concert to be given by the faculty of the Chicago Conservatory of Music.

## FARM ANIMALS PERISH IN FLAMES

Big Fire on the Place of Walter Cooley, a Wealthy Farmer Near Brodhead.

Brodhead, Wis., Jan. 21.—Fire early Sunday morning destroyed the large barn of Walter Cooley, a wealthy farmer, residing near here. Nineteen head of cattle, five horses, fifty tons of hay, 1,000 bushels of grain and expensive farming machinery were consumed.

The loss is \$4,000, with \$1,200 insurance. How the fire originated is a mystery. It was discovered at 3 o'clock in the morning, and the building was soon in ashes.

It was impossible to save any of the livestock.

## RAINS DELAY WAR IN SOUTH AFRICA

Recent British Operations Have Widely Scattered the Transvaal Troops Under Arms.

London, Jan. 21.—Lord Kitchener reports that the continual rains delay of operations last week. The Boer casualties during the past week were thirty-one killed thirteen wounded one hundred and seventy captured and forty-one surrendered. Recent operations have greatly scattered the Transvaal Boers.

Amsterdam, Jan. 21.—Since the Boers have practically decided to waive the question of independence in their endeavor to secure peace in South Africa, great gloom prevailed at headquarters here and at Hillersom.

Amsterdam, Jan. 21.—The promise of Chamberlain that there would be no confiscation of Boer property, that amnesty be extended and political rights be restored seems to reduce the question to a point to where an agreement is possible. One stumbling block is De Wet and the other Boers who remain in the field.

Washington, Jan. 21.—Ex-Assistant Secretary of the Interior Davis is here with a petition containing two hundred thousand signatures expressing sympathy for the Boers. The petition will be presented to congress.

## MINE EXPLOSION CAUSES SIX DEATHS

## SCHLEY APPEAL IN PRESIDENT'S HANDS

Washington, D. C., Jan. 21.—Schley and wife arrived here this morning from the South. Later in the day the Admiral had a conference with his counsel, Raynor. Speculation on Roosevelt's action on the Schley appeal has a free hand today. The general opinion here is, however, that the president will do nothing without consulting the cabinet.

## DESIRE A LEASE IN PERPETUITY

Washington, D. C., Jan. 21.—Difficulties in the way of the acceptance by the United States of the Panama canal offer is increasing. The Colombian government is proposing conditions which it is scarcely possible for the United States to accept. Colombia wants to make a lease of the two hundred years with the privileges of renewal but the isthmian commission insists on a lease in perpetuity.

## REVEALS DIPLOMATIC SECRET.

Position Taken by Great Britain During Spanish-American War.

London, Jan. 21.—In the house of commons yesterday Lord Granbarnet under secretary for foreign affairs, replying to Henry Norman (liberal), said that before the Spanish-American war the British government agreed to join in a note to the President of the United States expressing the hope that further negotiations would result in a peaceful settlement, but that the government declined to associate itself with subsequent proposals which seemed to be open to the objection of putting pressure on the government of the United States.

The funeral of Mrs. E. J. Sheenan occurred this morning at 9 o'clock from St. Patrick's church. Messrs. Timothy Mc Kiegan, Michael Mcenanahan, Wm. Cox, J. Ryan, J. Finney and Thos. Meely acted as bearers. The interment took place at Mt. Olivet cemetery.

## REPORT ON THE VOTING MACHINE

The State Commissioners Are in Favor of Its Adoption.

## USE OF IT IS SAFE

The Machine Prevents Any Opportunity for Repeating or for Voting Twice.

## CHECK ON POLL LIST

Madison, Wis., Jan. 21.—The voting machine commission today submitted its first report to the secretary of state, it being a statement of an examination of one of the United States Standard Voting Machine company's productions. The examination was made in Milwaukee Saturday. The commissioners highly commend the machine. Their report is as follows:

"To the Honorable, the Secretary of State, Madison, Wis., Sir: In accordance with chapter 459 of the laws of Wisconsin, entitled 'An act to provide for the use of voting machines in the elections in this state,' we, the undersigned commissioners appointed under this act do hereby report that at a meeting held on the 18th day of January, 1902, in the city of Milwaukee, we examined U. S. Standard voting machine No. 104 and report as follows:

Can Safely Be Used. "That it complies with the requirements of this act and can safely be used by voters at elections under the conditions prescribed in the act."

"That it enables each elector as full independence in registering or recording his vote as he can secure by any method heretofore in use. He may vote a party ticket or a ticket selected in part from the nominees of any other party; or he may vote for any independent candidate regularly nominated, or for persons not in nomination by any party."

"It also provides that each elector may vote a written ballot according to his own selection for any person for any office."

"The machine also prevents any opportunity for repeating a vote or for voting twice for one person, and also prevents the possibility of any defective ballots or error on the part of the voter."

"Provision is also made for voting upon all 'Yes' and 'No' questions that may come before the electorate, and also for allowing women to vote upon all questions upon which they are entitled to vote."

"The fullest secrecy is accorded to the voter during the time of registering his vote in which he is not exposed to view to any one while in the election booth."

"The voter can register his vote only after the machine has been released by an inspector of elections, and in the act of so registering he closes the side curtains over the front of the machine, and on retiring he again opens the curtains, leaving the machine locked and ready for the following voter."

Counts the Votes as Cast. "Provision is also made for cases in which the voter may vote for two or more persons for similar offices, such as alderman, etc., and prevents the possibility of casting more than one vote for each person."

"We believe the construction of the machine to be such in mechanical design and material that it is not liable to get out of order with any fair usage."

"The machine is provided with a dial device which continually registers the number of votes recorded, and this at all times in view of the inspectors and the voters. By this means a continual check may be kept against the poll list. After the polls are closed the number of votes cast for each candidate may be immediately ascertained."

"The machine may be locked with two locks, requiring two properly designated persons at one time to unlock it before the machine may be again examined or used, thus preventing any tampering with the results by any individual."

## Starts With a Cold.

Catarrh is a lingering cold, which refuses to yield to ordinary treatment.

Catarrh usually starts with a cold in the head and if left unchecked in this climate, rarely gets well of itself.

As fresh cold is taken the disease spreads, getting deeper and deeper, creeping along the mucous membranes from nose to throat, from throat to windpipe, from windpipe to bronchial tubes, and from bronchial tubes to lung cells.

The mucous membranes all connect, one with another. Hence it is easy to spread from one part to another lined with this same membrane. This is why catarrh in the head soon affects the throat and finally the stomach itself, bringing on chronic catarrh of the stomach, which is a most obstinate form of dyspepsia.

Everybody is now well agreed that catarrh is a blood disease and not a local one, and the attempt to cure by local applications simply gives temporary relief from the purely local symptoms without the remotest effect in staying the progress of the disease.

There is a new preparation recently offered to the public that is apparently destined to do away with every other form of catarrh treatment.

This new remedy is not a secret patent medicine, but is a large, pleasant tasting tablet, composed of Blood Root, Red gum from the Eucalyptus tree, and other valuable and harmless specifics, which are taken internally and seem to have a remarkably beneficial effect upon the blood and mucous membranes, apparently eliminating the catarrhal poison from the whole system.

These tablets, while being pleasant, convenient and absolutely safe to use have made cures in long standing cases of catarrh that are little short of marvelous. They are sold by druggists under name of Stuart's Catarrh Tablets, and any catarrh sufferer who has tried inhalers, lotions, ointments, salves, etc., and realized their inconvenience and uselessness, will fully appreciate the difference between a mere palliative and a permanent cure after giving Stuart's Catarrh Tablets an impartial trial.

All druggists sell them at 50 cents for full sized package and no matter where the catarrh is located, in the head, throat, lungs or stomach, Stuart's Catarrh Tablets will surprise you with the effective result of even a few days' use.

**BLIZZAAD SAID TO BECOMING THIS WAY**

Snow Storm in the Northwest is Hurrying in This Direction—Mild Touch of Winter.

Pleasant weather lasting more than a month was ended yesterday afternoon when a snowstorm began that will last probably throughout today.

Over two inches of snow fell during the afternoon and night, that which precipitated later, remained on the ground accumulating to a depth of more than an inch.

Several inches more of snow is expected today and tomorrow the weather will become colder, the temperature to fall fifteen to twenty degrees, but it is not expected that the zero mark will be reached.

Professor Cox of the Chicago weather bureau does not forecast a cold wave, as he believes the period of lower temperature which is approaching will be but a mild touch of winter.

These nowstorm is general in the middle west, extending from the Rocky Mountains to Ohio and moving in a southeasterly direction. There will be brisk northeast winds today, changing to the northwest tomorrow.

Nowhere in the United States is the temperature lower than 20 degrees above zero and zero weather is not anticipated for any section.

## NEWS OF THE COUNTY

**MILTON.**  
Milton, Jan. 21.—Senator Whitehead will address the Farmers' convention at Milton Junction on Wednesday afternoon. Do not fail to hear him. He will have something interesting to say to his audience.

The funeral services of Mrs. Henry Waterman were held in Janesville last Friday morning at the home of her daughter, Mrs. David Brown. A large number of friends and neighbors were present. The services were conducted by Rev. A. L. McClelland of this place, the song service being rendered by Mrs. A. J. Root and Miss Grace Spaulding. The interment was in the Milton cemetery. Miss Adella E. James was born in Johnston, Rock county, Wisconsin, Jan. 23, 1844. She resided there until her marriage with Henry H. Waterman, Dec. 18, 1867. Since then their home has been in or near Milton, with the exception of the last two years, when they have lived with their daughter in Janesville. Three children were born to them, Mrs. David Brown of Janesville; W. H. Waterman of Milton; and Mrs. L. G. Crosby of Seattle, Wash. Over sixteen years of her life were faithfully spent in caring for her invalid husband. Just as he began to recover, she was stricken with paralysis, Dec. 29, 1897. Since that time she has been an invalid, joyfully and tenderly cared for by her husband and children. When she was sixteen years of age she united with the Free Will Baptist church of Johnston, of which she remained a member until her death Jan. 15, 1902. Her husband and family have the sympathy of the entire community.

A. L. M. and Mrs. W. H. Ingham gave a reception for Mr. S. M. Clarke of Independence, N. Y., at their home on Monday evening. Refreshments were served and the sixty or seventy young people present were given an opportunity to make the acquaintance of Mr. Clarke.

Mrs. Sophie Binns, President Young People's Christian Temperance Union, Fruitvale, Bal., Cured of Congestion and Inflammation of the Ovaries by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Eighteen months ago I was a pretty sick woman. I had felt for some months that I gradually grew weaker, but finally I had such severe pains I could hardly stand it. I had taken cold during menstruation and this developed into congestion of the ovaries and inflammation, and I could not bear to walk or stand on my feet. The doctor recommended an operation which I would not hear of. One of my friends advised me to try Lydia E. Pinkham's Vegetable Compound, so I gave it a trial. Can you imagine my feeling when within two months I felt considerably better, my general health was improved, and my pains had entirely disappeared. I kept taking it six weeks more and am now enjoying the best of health, thanks to you. Yours truly, MRS. SOPHIE BINNS."

## A FACT AND NOT A THEORY.

In the heat of political discussion it is always easy to make statements against the opposition, and commend men and measures that are endorsed. The discussion just now going on in the republican press of the state, both for and against the governor and his policy, contains elements of bitterness on both sides, that are unfortunate for the party; and more or less disgusting to the general public, who are only actively interested in politics at election time. It is unfortunate for the party that a campaign should be dragged through a year, and yet the conditions have been forced upon the party.

The movement to call out Senator Whitehead, by the conservative element of the party, is in no sense a local movement. It is state wide, commanding attention in every district and county. The contest that promises to be spirited, is not personal, and any attempt that is made to drag personalities into it, will result in an element of weakness, for either side.

Governor La Follette enjoys the confidence of the people, so far as his private life is concerned, and Senator Whitehead shares in the same degree of confidence. The governor has a public record, as well as the senator. Both men have pronounced views on questions of public policy, and the contest, should the senator decide to enter the field for gubernatorial honors, will be on the broad question of public welfare.

It is very evident that many friends of the governor have reluctantly decided that he is not a safe and conservative leader, and however much they may admire the man, they do not feel warranted in again endorsing him as a leader. This feeling is so widespread that action was deemed necessary, and Senator Whitehead has been selected as the most available man to represent the conservative party element. It is idle to say that the movement is spasmodic. It is intensely real, and will gather strength as the campaign progresses.

It is not reasonable to suppose that the governor and his supporters, will abandon the field, or that they will cease active opposition until strength is tested in the convention. And yet it is a mystery to many men, why the governor should aspire to succeed himself, under the circumstances. In the event of success, he will be hampered by a legislature that will not be in accord with him, and his administration will necessarily be disappointing.

The governor is confronted with a fact, and not a theory. He is attempting to lead a divided party, and lacks the ability to harmonize. There is no assurance, that under his direction the party will ever get together and work unitedly.

His short term in office fails to inspire confidence, and dissatisfaction is freely expressed, by men and interests, outside the party ranks.

The welfare of the state is of more vital import, than the success of any party, and the conservative make-up of the state demands a governor who is in accord with popular sentiment.

## PRINCE HENRY'S VISIT.

Some significance attaches to the visit of Prince Henry, of Germany, who is now en-route, to be present at the launching of the Emperor's yacht. The triple alliance, from which so much was expected by European powers, has culminated in failure, and as Germany has no time for England, she is interested financially in cultivating friendly trade relations with America. The United States has so recently gained recognition as a world power, that attention from royalty is a new experience.

The German prince will be courteously received and hospitably entertained, but his august presence will not create a panic, and business will not be suspended or disturbed. It would be a gracious, as well as a profitable thing to do, if an exchange of some commodities can be arranged on a reciprocal basis. Germany possesses great possibilities as a market for American goods. Reciprocity means friendly and equitable exchange with individual nations. The principle is as old as any other well established principle, and is as foreign to free trade, as is a high tariff.

The Dingley bill provides for treaties with a number of nations on certain lines of goods, which are ready to put in operation, and only await the favorable action of congress. Mr. Kesson, who was at the head of the reciprocity commission for four years under President McKinley, made a thorough study of the situation and he claimed that the nation has now come to the parting of the ways. If we chose reciprocity, that prosperity would continue, but if refused, that retaliation would speedily follow, and stagnation result from overproduction.

While Prince Henry is ostensibly out on a pleasure trip, it may be well for the nation to do business with him, on a basis of fair play. The German market can be made very

desirable, on concessions that will benefit both capital and labor in this country.

## KANSAS TO THE FORE.

"A law to compel keepers of hotels to keep on each bed four quilts and one blanket, each quilt to contain not less than five pounds of cotton batting (not coarse hair) and to be covered with at least fourteen yards of cloth (seven yards on each side), and the blankets to weigh at least two pounds, and this covering to be kept on the beds from Sept. 10 to May 1."—Kansas City Journal.

A Kansas City, Kansas, woman is the author of the above bill, which was recently for warded to a member of the house from the Sunflower state. By the same mail, the representative received a brand new federal constitution, from an enthusiastic reformer, requesting that it be substituted without delay for the musty and time worn document now in use.

Kansas is nothing, if not progressive. There is never any uncertainty about her reform movements. They may be theoretical, but they are always emphatic. When she legislates on temperance a hatchet enforces the argument. After the hotel keeper has lost his bar, he is invited by congress to furnish more bedding. Between September 10 and May 1 sleep is to be made so attractive that his former saloon patrons will hibernate and a long all winter nap will destroy their appetite for drink.

The scheme will be watched with interest by neighboring states. If it works all right, an era of economy will be established that will revolutionize conditions. Kansas needs a rest, and her enthusiastic women propose to make it luxurious.

Wisconsin is not so far advanced. The primary law is supposed to relieve the masses of much worry and anxiety, while the one mill microbe soothes to slumber by increased taxation without knowing it. If reforms multiply, the regulation Kansas bed will be in demand. This is an age of progress and Kansas leads the van. Wisconsin sends greetings, and approves of the latest innovation. Reserve two rooms and a bed.

## JANESVILLE KNOCKERS.

Janesville has a small class of people who delight in tearing down. The Valentine School of Telegraphy, which is the best of its class, in the land, frequently commands the attention of this class of knockers; and if they can persuade a prospective student to go home before entering the school they have accomplished a good day's work, and feel that they are entitled to chrono.

For a small consideration this class of people would be willing to spend their time at the depots, waving a small flag, to keep people away from the town. To their perverted notion it is perfectly legitimate to injure a man's business, and they have no regard for the interests of the city that tolerates them as citizens.

They know nothing about the telegraph school, what it has accomplished, and what it is doing. They simply argue that because some young men fall in acquiring a knowledge of telegraphy, that the school is a fraud. They are not aware of the fact that hundreds of men are holding good positions today, as the result of an education received at the Janesville school, or that sixty unfilled applications for operators are now on file, for men as soon as they can be equipped. They do not consider that if a school for teaching the dry goods or any other business were opened tomorrow, with an attendance of 100 young men, and a guarantee to start them in business as soon as they were qualified, that half of them would fail.

There are two sides to almost every question and Janesville knockers will do well to consider both sides of the telegraph school question before denouncing it.

## WHITEHEAD FOR GOVERNOR.

It is quite probable that State Senator John M. Whitehead of Janesville will be the republican candidate opposed to Robt. M. La Follette for the nomination for governor before the state convention in August.

Several other names have been suggested, Walter Alexander of Wausau; Senator A. M. Jones of Wausau and State Senator Fred A. Dennett, present mayor of Sheboygan, but these gentlemen for one reason or another have declined the honor.

Senator Whitehead is honest and able, fair towards all, and no objection could be raised against him as a candidate.

His boom for governor was the result of his recent able discussion of the taxation question before a literary society composed of the leading citizens of Madison.—Clintonville Tribune.

Janesville is threatened with a campaign daily. The governor is so destitute of press support in the first congressional district that a paper is needed. The north, east and west are corralled with organs, but the south has been neglected. There will be more harmony in a quartette.

Bishop Potter and Rev. Rainford have discovered that public speakers sometimes talk too much. They are being cleverly denounced by temperance workers.

Chas. M. Schwab may have had plenty of fun at Monte Carlo, but he added nothing to his reputation at home. The clergy are taking a whirl at him, claiming that his example is demoralizing to young men.

A little more money invested in brains in the operating department of

railroads might be a good investment. The signals are all right, but the man behind the signal is an important factor.

## PRESS COMMENT.

La Crosse Republican-Leader: Postmaster General Payne has buckled right down to business and is keeping up his reputation for sawing wood and allowing the other fellows to monopolize the talking.

Rice Lake Leader: In every community men are to be found who were in favor of La Follette a year ago and who are strongly opposed to him now. No cases are noted where men who were opposed to him a year ago are now his solid supporters. The tide is all against La Follette, and if it keeps up much longer he will be swept away in the next state convention.

Milwaukee Journal: They are calling him "Honest John," a "political Moses," etc., etc. Fortunately nothing so undignified as "Bob" or "Teddy" will be in order, unless (perish the thought) some flippant one might start an incongruous "Jack."

Washburn Times, stalwart, rep.: Mr. Whitehead is one of the best posted men on taxation in the state of Wisconsin, and has always been a zealous advocate for equal taxation. There has been a demand all over the state for Senator Whitehead for governor, and this has developed into a genuine boom since the address was delivered at Madison.

New Richmond Republican-Voice: Senator Whitehead is a broad minded, broad-gauge, liberal man; he is not a man with a hobby or a single idea. He is a self made man. He has no animosities to avenge; he has no enemies to persecute. He is strong bodily and mentally, in the very prime of vigorous manhood. With him, there will be no special train, no playing to the galleries, nothing spectacular. There is nothing of the demagogue about John M. Whitehead.

Waukesha Freeman: The past week has witnessed a great change in state political affairs, and the sentiment developed in favor of nominating Senator John M. Whitehead of Janesville for governor on the republican ticket has grown to such proportions that it seems assured that he will be the chosen leader of those who will oppose the renomination of Gov. La Follette.

Waupun Times: Every attack on Senator Spooner can be traced to a supporter of the governor. Every newspaper which attempts to cast insinuations on his record or disparage his ability is enrolled in the La Follette ranks. Some of his prominent office holders have made public addresses against the senator, and others have canvassed the state in order to select probable members of the legislature who would be subject to the demands of the machine. If this is done in the interest of harmony, it has a queer way of manifesting itself.

Hartland News: Those people who imagine that Gov. La Follette will consent to any kind of a compromise if he has delegates enough to nominate him in the republican state convention, do not know the man. He will insist on both platform and ticket being made to his liking, and will also attempt to boss the next legislature as he sees fit. Do not imagine for a moment that he will neglect senatorial matters either.

Stoughton Hub: Referring to the Hub's disclosures of Governor La Follette's political record in Dane county, the Milwaukee organ says: "Nobody is going to deny them; nobody cares." Let's see! We alleged that Mr. La Follette insulted Senator Spooner; that he assailed General Fairchild; that he selfishly pursued John Erdall to defeat; that he packed republican caucuses with democrats; that he has booted in every campaign for governor for ten years except in his own; that he traduced and insulted a majority of the republicans of the last legislature; that he has proven himself ungrateful to the party that put him in office, etc., etc. Does "nobody care" because their governor has done these things?

Illinois Postmasters in Trouble. Springfield, Ill., Jan. 21.—The grand jury in the United States court for the southern district of Illinois completed its work yesterday and was discharged after returning fifty-eight indictments. ## HOTCOCKING MAIN NEAR CITY LIMITS

CLEANEST EVER PULLED OFF IN  
THIS SECTION.

Birds in the Contest Were from Freeport, Beloit, Rockford, Clinton, Madison and Fort Atkinson—Every Fight Was to a Finish—Much Money Changed Hands.

Three hundred chicken enthusiasts from Freeport, Beloit, Rockford, Belvidere, Clinton, Madison, Fort Atkinson and Whitewater gathered at Janesville last night and witnessed one of the largest and cleanest cocking mains that was ever pulled off in southern Wisconsin.

The main was fought in a building located near the city limits and lasted from eight o'clock Monday evening until after daylight on Tuesday morning.

The principal event was a main of eleven fights between Janesville and Fort Atkinson for \$10 a fight and \$50 on the main. It was a stubborn contest the victory being in doubt up to the last fight, the score being 5 to 5 at the end of the 10th fight. The eleventh and deciding battle being won by the Fort Atkinson bird.

The crowd at the pit were very orderly and the betting lively, a large amount of money changing hands during the night. The Janesville birds were handled by a Chicago expert and a Fort Atkinson handler looked after the birds from that town. The birds shown were mostly reds only two grays being shown. They were of many different breeds being known as Tornadoes, War Horses, Shufflers, Gristers and Dumbbells.

Every fight was to a finish except one that was lost on a fluke, the Fort Atkinson handler picking up his bird before being told to handle by Referee Dawson. The first battle was between two reds and went to Janesville, the Fort Atkinson bird being killed at the end of ten minutes fighting.

The second fight was between reds and won by Fort Atkinson on the breast, at the end of fifteen minutes fighting.

Fort Atkinson won the third battle between two reds, the Janesville bird quitting after a hard fight.

In the fourth battle Janesville showed a red and Fort Atkinson a gray bird. This promised to be a battle royal but after a short fight Roberts thinking his bird was hung picked him up and lost the fight.

Fort Atkinson won the fifth fight after a long contest, both birds fighting to the end.

The sixth fight was a whirlwind. Fort Atkinson showed a Grist gray and Janesville a Pierce Shuffler. The fight ended in favor of the Fort Atkinson bird.

The seventh battle was a long drawn out affair and ended in favor of Janesville, both birds being about gone.

The eighth battle was a short one, the Janesville bird, a red putting the Fort Atkinson bird out in short order.

The ninth battle was a long one, the birds being strong fighters and holding on to the last count, it was finally won by Janesville, leaving the score 5 to 4 in favor of Janesville. In the 10th the shouting was all over for Janesville in about half a minute, the Fort Atkinson bird killing the Janesville chicken in quick time. This left the main 5 to 5.

In the last and deciding battle the birds were the pick of the bunch, the battle and main going to Fort Atkinson after five minutes fast fighting. After the main a dozen match battles were fought between chickens from all the surrounding towns for sums varying from ten to fifty dollars.

## VACCINATION OF SCHOOL CHILDREN

Health Commissioner Fifield Will  
Urge the Method Upon the  
Board of Education.

The advisability of the vaccination of the pupils throughout the city schools will very likely be strongly urged upon the Board of Education at its next meeting by the Health Commissioner, Dr. George W. Fifield.

Janesville is about the only city of its size in this state or Illinois that is entirely free from small-pox at the present time and the department of health fears that the dread disease may put in an appearance here.

To guard against the contagion Dr. Fifield advises that the necessary steps toward a general vaccination should be taken at once.

Under the state laws of Illinois a child is not to be permitted to enter school without a certificate of vaccination and in most of the cities of any size through out the state the law has been rigidly enforced.

Although there is a statute in reference to vaccination in this state in many of the cities there has been a general vaccination of the school children a voluntary precaution taken by the parents at the instigation of the health department both state and local.

In this city, however, the number who have been vaccinated are comparatively few.

Dr. Fifield states that vaccination is the only sure precaution against small-pox and is one in view of the results attained from it that everyone should welcome and not dread as many do.

It is the general vaccination practiced all over the world during the past two hundred years which has reduced the awful fatality from epidemics of the disease. The doctor is in favor of the frequent vaccination.

The danger of blood poisoning resulting from it he states are infinitely small and were seldom if ever caused by the vaccine but uncleanliness on the part of the patient while the sore was healing.

**NAME ON PETITION  
WORTH FIVE CENTS**

That's What La Follette Leaders Are  
Paying to Get Signatures on  
Their Papers.

Signatures to the La Follette petitions are worth five cents each to the circulators, according to the statement made by an employee of a well-known manufacturing establishment in this city.

The gentleman in question was approached yesterday by one of the many circulators of La Follette petitions and asked to put his name down on the list.

The gentleman said he had no personal feeling in the matter and did not care to sign the petition.

The circulator said he would like to get his name on his list, not that he was so much interested in La Follette but that he received five cents for each name he added to his list, and therefore wishes to get as many signatures as possible.

This may account for the number of men employed in the circulation of La Follette petitions.

## SEASON OF LENT IS COMING SOON

In a Few Weeks Social Gaiety Will  
Be Interrupted for Forty  
Days.

The season of Lent is now close at hand. In a few weeks the season of social gaiety will be interrupted for forty days, and in its place will come a season of quiet and religious observance.

Lent, observed to commemorate the forty days' fast of our Lord in the wilderness, begins this year on Feb. 12—Ash Wednesday it ends with Easter Sunday—the day of spring costumes.

The period of fasting is forty days, with all the churches which observe Lent, except the Greek churches, which have lengthened it to forty-eight days. Sundays are not counted in the fast. Pope Gregory, the Great, in 590, directed that the season should begin on the sixth Sunday before Easter, and that on all the intervening week days fast should be practiced. Afterwards, either by him or by Gregory II, four days were added, to make the whole fast forty days.

The six Sundays included in the Lenten period are observed as festivals, never as fasts, and are therefore called Sundays in Lent and not Sundays of Lent. The last, or passion week is considered the most solemn portion of the season and is generally known as "Holy week."

The ancient observance of Lent was one of the most rigorous character. Nonobservance frequently resulted in severe punishment and often excommunication. All flesh and even the so-called "white meats" were excluded. Modern customs, however, have caused a relaxation of the old and severe methods of observing the period. But the principle of permitting but one meal, with a slight colation is still everywhere retained.

The hearing will be held in the city of Portland, Oregon, on January 21, 1902. Notices have been sent out to all his creditors so they may have a chance to appear and defend their claims before he is finally adjudged a bankrupt.

Mr. Kolle formerly resided in this city and conducted a jewelry store on East Milwaukee street. He did not make a success of the business and was sold out by the sheriff. He later conducted a store on West Milwaukee street which his father took possession of under a chattel mortgage. He then left here and went out west.

**Diamonds in Montana**  
An associated Press dispatch in Saturday's papers coming from Lewiston, Mont., announces the discovery of diamond mines in Fergus county. A gentleman by the name of F. C. Pierson who is visiting with relatives in the city in an interview with a reporter today stated that he came through Lewiston, or rather the Hood Creek region, which is in the Judith Mountain region and where the reported mines are located about half a week ago and heard no rumors of the discovery at that time. Mr. Pierson owns a homestead in the same locality, consequently the reported discovery is of interest to him. He is spending the winter here.

## COLOMBIAN SHIP SUNK BY REBELS

Early Morning Attack on the Lautaro by the Lib-  
eral Fleet.

GEN. ALBAN DIES AT HIS POST.

United States Sailors from the Phil-  
adelphia Go to the Rescue of the  
Wounded and Drowning Men of the  
Opposing Fleet.

Panama, Colombia, Jan. 21.—Making  
their long-expected attack on Panama,  
the Colombian Liberals set on fire and  
sank the Lautaro, a government ship,  
and one of their vessels, the Darien,  
was beached. There was a heavy loss  
in killed and wounded, especially on  
the government side. Sailors from the  
United States cruiser rescued many of  
the wounded.

General Alban Killed.  
More far-reaching in effect perhaps  
than the naval fight is expected to be  
the death of General Alban, the civil  
and military governor of Panama, and  
the practical dictator of his district.  
He was killed leading his men to per-  
son on the steamer Lautaro, which  
only a few days ago was seized from  
a Chilean company. Standing on the  
quarter deck, encouraging his men  
after the ship was afire, he was struck  
by a bullet from a rebel gunboat. He  
died quickly and, not long afterward,  
his men were in full retreat from the  
burning ship.

Attack Was Unexpected.  
The revolutionary vessels practically  
surprised the Lautaro, the largest of  
the government ships. The Padilla,  
which has an excellent equipment of  
rapid-fire guns, went close to the  
Lautaro, and before that ship could  
make effective reply to the fire, killed  
or wounded scores of Lautaro's crew.  
With the Boyaca, absent getting  
troops at Chiriqui, the only govern-  
ment vessel effective was the Chilcutto.  
The Chilcutto attempted to cut off  
the Darien and Gulten, and the Pa-  
dilla sent three shots from her heaviest  
guns at the Chilcutto. This vessel re-  
plied with rapid-fire guns and the Pa-  
dilla moved away.

Aid from American Sailors.  
The Padilla got within range of the  
gun of the Boyaca, a fortress, and  
several shots fell close to the ship.  
There was no evidence that this vessel  
was struck, except that she moved  
slowly after the exchange with the  
Chilcutto.  
It is rumored here that the Lautaro  
was fired as the result of treachery.  
American sailors were by that time  
busy rowing to the Lautaro and tak-  
ing off the wounded and fugitives from  
the fire. The men from the United  
States ship endeavored to extinguish  
the fire on the Lautaro, but failed.

London, Jan. 21.—It is declared that

# WOMEN

Every physician of large practice has had the experience of being called on to attend women who imagined that they were in the last stages of some dire female malady, when upon examination the fact was revealed that obstructed physiology of the stomach or bowels was the whole cause of the trouble.

The physician, however, who has not had experience may fall into the error of diagnosing grave diseases of the female system when they do not exist, because disorders of the bowels may be neglected until they give many of the appearances of female disease. The bowels have been known to become so clogged with hardened contents as to produce a condition closely resembling uterine displacement, uterine prolapse (falling of the womb) and the sick headache which is often attributed to female diseases is most often actually due to some trouble in the digestive machinery involving the liver, stomach, bowels or the great "Solar Plexus," which is the central telegraph station from which nervous messages are transmitted to and from all the organs in the abdominal cavity.

J. Franklin Bell, the military commander in that province, has determined on the enforcement of the war in the most vigorous and determined fashion, involving reconcentration in a modified form, the application of martial law in all directions, and the unsparing pursuit and punishment of the natives who act as spies and traitors to the United States.

All this appears from a long report to the War Department, just published. The reconcentration order is dated at Batangas, Dec. 8 last. ## Kodol Dyspepsia Cure

Digests what you Eat

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is Kodol Dyspepsia Cure, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsford, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

It can't help but do you good

Prepared by E. G. DeWitt & Co., Chicago. The \$1 bottle contains 2½ times the 50c size.

When you suffer from biliousness or constipation, use the famous little liver pills known as DeWitt's Little Early Risers. They never gripe. Above Preparations sold by McEUE & BUSS

## WILDER METCALF MAKES DENIAL

Washington, Dec. 21.—Wilder Metcalf, whose nomination to be pension agent for the Kansas district is being held upon charges that he killed a Filipino while the latter was upon his knees begging for mercy, was heard on his own behalf this morning by the senate pensions committee. He entered a positive denial and accused his political enemies and former members of the Twentieth Kansas who were jealous of him of responsibility for the charges. One witness said he was a member of the Kansas regiment in charge of two Filipino prisoners. They were compelled to put them to death because they refused to accompany them. Metcalf, the witness stated, was not present and knew nothing about the affair.

### GRAVE PARTY DANGER.

Right Should Prevail and Republicanism Be Subservient.

Waupaca Record: And now the new year begins in earnest. While the state press has been browsing around the edges of political affairs and getting their guns ready for action the real battle is still to come, and it behooves every man to be ready for action. It is to be no child's play. The honor, the reputation and the future of the republican party in this state is at stake. From the time Governor La Follette tried to sacrifice one of the greatest men this state had within its borders up to the present time, his course has been to mow down and ride to victory on the fallen bodies of his friends. The time has passed when his extended hand holding the olive branch while the lips murmur softly "harmony" can further deceive. His present course only brings more vividly to mind his base attacks on the Scofield administration. No true, self-respecting republican can or will forgive the dirty political modes of attack employed at that time.

There is every reason to expect it to be more venomous in the future, more underhanded and a fight to the death. The governor has a few, yes, a very few, honest, fair members of the press with him; in the main they are with what is termed the stalwart or out-and-out republican branch. La Follette is fully alert to the fact that this is his death struggle and he will move "heaven and earth" to gain his ends. The stalwart press must keep a close rein, not one thing be said or done that is not absolutely truthful and reliable. It is a large body to handle and the deepest feeling is manifestly evident. They want the right to prevail; and may in a moment of high tension go beyond the bounds of their absolute knowledge. Let not a word be uttered that cannot be substantiated. The Record was not in favor of the nomination of La Follette as he and all know. We gave him a fair trial and every word of commendation, that opportunity presented, but he has utterly failed to accomplish anything, except to become the governor, one of his great ambitions fulfilled. His own unsatisfied desire for power, his absolute demand for his way or none, has been the rock that will strand his ship, but not the people's ship of state because they have been up and demanded a new captain.

## DECISION AGAINST THE MACCABEES

Kansas City, Mo., Jan. 21.—The Court of Appeals decided yesterday in the case of Fannie Brassfield vs. The Knights of the Maccabees that fraternal insurance orders must operate under the laws of Missouri. Mrs. Brassfield's husband's life was insured for \$2,000 with the Maccabees, the policy providing that it should be void if the insurer committed suicide within five years after issuance of the certificate, whereas the state law provides that it shall be no defense that the insured committed suicide. Brassfield committed suicide within five years, the Maccabees refused to pay the policy, and the court gave judgment.

## CASHIER MAY BE \$175,000 SHORT

Helena, Mont., Jan. 21.—Herbert H. Matteson, cashier of the First National Bank of Great Falls, was arrested there yesterday on a warrant issued by United States Commissioner Russell at the urgent request of District Attorney Rogers, who charged him with embezzling \$2,000 of the bank's funds on Jan. 15. The officer who accompanied Matteson to Helena said that it is believed that the total amount he is alleged to be short would reach \$175,000. Speculation, it is said, was the cause of the defalcation. The bank is strong financially and is in no danger of embarrassment.

## SEVEN MEN ARE BURNED TO DEATH

Hambleton, W. Va., Jan. 21.—Seven men were burned to death in a camp operated by the Otter Creek lumber company early this morning. The details of the disaster are unexplained but it is known that seven perished and a number hurt in jumping from the building in which all were asleep. A rescue party has gone to the scene.

### Convicts Not Yet Recaptured.

Tacoma, Wash., Jan. 21.—McNell's Island, on which the federal prison is located, is surrounded by an improvised fleet of launches, cutters, and row boats in order to prevent the escape of the prisoners who got out of the prison building at dinner-time Sunday. The convicts are all desperate men and it is feared there will be a fight before they are retaken.

### Lays Protests to Powers.

Brussels, Jan. 21.—Dr. Leyds, the European representative of the Transvaal, has addressed a protest to the powers against the execution of the Boer commandant Scheepers, whose death sentence, confirmed by Lord Kitchener, he describes as an assassination, justifying retaliation on the parts of Generals De Wet and Botha.

### Smallpox in Michigan University.

Ann Arbor, Mich., Jan. 21.—Miss Effie M. Parham, a junior literary student, whose home is at Brunson, Mich., has been removed to the detention hospital, suffering with smallpox, and orders from the university are that all students must be vaccinated if they have not already undergone that operation recently.

### Marconi May Signal St. Johns.

### Smashup on Big Four.

Indianapolis, Ind., Jan. 21.—The Big Four train No. 35, due here from Cleveland at 10:40 p. m. Monday, ran into the first section of a freight No. 74 at Harrisville, Ind., which had orders to take the siding.

Fireman Williams of the passenger train was the only one injured.

### Appoints a Receiver.

New Orleans, La., Jan. 21.—The Cafery Central Sugar Refining company and Franklin & Abbeville Railroad company went into the hands of a receiver yesterday. Some \$100,000 is involved in the sugar refining company, and nearly as much in the railroad company.

## THE PRISONER

Who escapes from jail is by no means free. He is under the ban of the law and punishment is written over against his name. Soon or late he will be caught again and bear added punishment for his short escape from his cell.

Those who by the use of palliative powders and tablets escape for a time from the sufferings of dyspepsia are in the same condition as the escaped prisoner. Soon or late they will go back to the old condition and pay an added penalty for temporary release.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the stomach and organs of digestion and nutrition. Its cures are lasting.

"For about two years I suffered from a very obstinate case of dyspepsia," writes R. E. Record, Esq., of 13 Eastern Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not bear any solid food on my stomach for a long time; felt melancholy and depressed. Could not sleep or follow my occupation (tinmith). Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much benefit that I continued the medicine. I have taken three bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets stimulate the liver.
